DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 6-10, 12, 15-17, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by **Nickel (4,286,573)**. **Nickel** discloses a heat trap assembly (SEE Figure 2) including a cage with curved ribs (15) (SEE Figure 2) which defines a fluid outlet, a seat (21) opposite to the fluid outlet and defines a fluid inlet, a spherical sealing member (17) which covers the inlet of the housing and includes a tail portion (16, 18) (ie: post of claim 7) aligned with the central axis of the spherical portion having a stop or catch (16) inherently restricting rotational movement in all axes (SEE column 3, lines 44-51), and a nipple (4) attached to an associated hot water tank.

Allowable Subject Matter

Claims 4, 5, 11, 13, 14, 18, and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
